

BCA Spring Meeting 2004

Manchester, 5-8 April 2004

<http://www.crystallography.org.uk/meets/bca04/bca04.htm>

The 2004 Annual Spring Meeting of the British Crystallographic Association will be held in the Renold building in UMIST. As well as the main meeting, 6-8th April, and there will be a free Young Crystallographers meeting with mixer on Monday 5th April.

Bursaries

We are committed to keeping down our costs, particularly for students.

Bursaries are available for students, with online application available from the BCA website

www.crystallography.org.uk/admin/bursform.htm

You must present a poster and apply before 20th February!

Programme highlights in Biological Structures/Macromolecular Crystallography

Catalysis : from metals to macromolecules (Plenary session)

includes Jim Naismith (St Andrews) 'The activation of Inorganic Fluoride'

Parallel session : Molecules in Medicine includes

Gary Parkinson (London)

Neil Feeder (Pfizer)

J P Derrick (UMIST)

Parallel session : Methods in Macromolecular Crystallography includes

Kim Henrick (EBI)

Jon Hadden (Leeds)

Martin Walsh (MRC-France, ESRF)

Lonsdale lecture

Elspeth Garman (Oxford)

Dorothy Hodgkin Prize Lecture

George Sheldrick (Göttingen)

Deadlines

Abstract submission: 20 February 2004 (www.isis.rl.ac.uk/bca2004)

Early-bird Registration: 5 March 2004 (for reduced fee)
