BioXHIT

A European integrated project to provide a highly effective technology platform for Structural Genomics.

Life Sciences, Genomics and Biotechnology for Health

WP5.2: De 5.2.14 New version of the visualiser incorporating functionality and tools identified in milestone Ms 5.2.6

Due date of deliverable: **31.10.2007**
Actual submission date: **31.10.2007**

Start date of project: **1.1.2004**   **Duration: 60 months**

Organisation name of lead contractor for this deliverable: CCP4/STFC Daresbury **Author:** Peter Briggs

De 5.2.14 New version of visualiser incorporating functionality identified in milestone Ms 5.2.6

The following functions and tools previously identified in milestone Ms 5.2.6 have been selected as extensions to the database visualiser application "dbviewer":

- Display of subjobs associated with a specific job in the tracking database (implemented in the tracking system as part of deliverable D 5.2.10).
- Last viewed project and preferred display settings remembered being sessions
- Display an indication when project is "read-only"
- Use the same custom colours for job display as those set in CCP4i
- Access to input and output files associated with job nodes

A version of the visualiser application with these extensions can be found in the following supplementary files at http://www.ccp4.ac.uk/projects/bioxhit_public:

- de5.2.10_de5.2.14_dbccp4i-0.3.tar.gz
- de5.2.10_de5.2.14_dbccp4i-0.3.zip

Peter Briggs, CCP4
